

iTGap Analysis

iTGap Analysis Comparing your use of IT with industry best practice...

The Integrous FREE, 1 Day iTGap Analysis works like this: In discussion with relevant personnel, we analyse how your business works and where technology opportunities exist to make it more customer-centric, more efficient and more profitable. Using our expertise and the knowledge acquired of your business, we uncover weaknesses or 'Gaps' in current IT systems, processes and infrastructure and identify potential risks to the business. We will provide you with a report covering:

- IT vision and strategy
 - Short-term quick wins
 - Change management issues
 - Training needs overview
 - Budget allocations
 - Action plan for you to use going forward
- Why Bother? Read this article: [Bridging the IT Gap](#)
