

Onshore

Onshore Bringing the benefits of Offshore resourcing ONshore...

We want all of our clients to recieve the potential benefits of offshoring - regardless of the requirements of their project.

In some circumstances, where there is a need for a developer to really get 'under the skin' of your project, it may be more appropriate to bring our specialist offshore resources ONshore - to work with your team in-house. Of course, you will still receive the financial benefits of offshore rates - typically saving 15-25% on your overall resource costs. Related Links:
